

Plumbing, Heating, Electrical & Renewable Contractors

Celebrating 50 Years of Trading Excellence

Call RGV Engineering Limited on 01980 670667

RGV Engineering Ltd would like to thank all of our loyal customers who have supported RGV Engineering Ltd over the past 50 years & we look forward to working with you for many years to come

Mark Chalke with Rod Hatcher the original plumber still employed and working with RGV

"Congratulations on your 50 years in business.

It is unusual to find a genuine family-run business in these essentially hard-nosed commercial times. We really appreciate the personal service we receive. I was amazed that recently when I needed to call at the weekend I was able to speak to a member of the family who sent out another member of the family almost immediately. I was very impressed.

"As part of our regular service we have two dedicated local engineers on 24 hour call, this allows me to take leave with confidence.

"I look forward to our future business being in your safe hands."

Estate Manager - Local Estate.

"We have known RGV for over 30 years. Now run by David Burke, and also when run by David's Father, Gary. During that time we have had numerous occasions to use the services of RGV, and without exception they have provided a first-class, efficient, friendly and prompt service. This was highlighted very recently when we had a gas leak from our boiler.

David dispatched two engineers immediately and they dealt with the potentially dangerous situation quickly and safely.

Always courteous, simply cannot fault their highly professional service."

John and Sandie Tighe.

"Here at CarillionAmey we have utilised RGV contractors for their specialist heating services in some of our properties. The properties have been built and installed with ground source heat pumps as their means of central heating and RGV's technical expertise isn't matched when it came

Air Source Heat Pump installation

down to the maintenance. They are prompt with the service delivery, approachable at any level and their engineers have received great customer feedback."

Luke Curtis. Area Delivery Manager, Area 3 CarillionAmey.

"Mr Burke, I just wanted to express our thanks for the way RGV carried out the whole solar panel exercise here, with speed and efficiency. All your people were delightful and worked extremely well. Well done all concerned; a great team effort and we beat the deadline too!"

Sir Peter Jennings.

"I cannot fault RGV in any way. Everyone is so polite and helpful. They have looked after our house for years and are such a professional friendly company headed by Mr Burke."

Mrs Everett.

"I would strongly recommend RGV for their professional friendly efficient service. A first class service carried out using high quality materials. I certainly recommend them."

Mrs S Hickman.

"I am so pleased to hear that RGV is celebrating 50 years of trading. It is a company that was definitely built to last and has made a commitment to

excellence that clearly shows in everything they do. I have had such a great experience with RGV that I recommend them to anyone who needs a plumber no matter the size of the project."

Sarah Blank.

"On behalf of Girlguiding Wiltshire South I wish to express our thanks for the excellent job your company did in installing our new heating and hot water system at our Guide Centre.

Rosemary Douce.

"50 years in business is testament to a service provider doing things right. We have been customers of RGV Engineering LTD for the past few years and have always found them professional in approach, technically knowledgeable and very willing to complete all service and repairs in a timely workmanlike fashion. Well done RGV; continue with the good work and the same level of service for the next 50 years."

Michael Wilson.

"May we take the opportunity to thank Mark and his team for their friendly, efficient and hardworking manner

John & Eileen Bletsoe.
